

FREELANDER 2

PRICE LIST SEPTEMBER 2007

Our commitment to a sustainable future.

From the design of our vehicles and the way we build them, to the way we use them and where we use them. At Land Rover, we are committed to addressing the challenges of sustainable development. We operate world-class manufacturing facilities, which have been certified to ISO14001 since 1998. Our UK manufacturing facilities have reduced emissions by around 4 per cent, year on year, over the last 5 years. Our pioneering CO₂ Offset Programme is expected to offset over two million tonnes of CO₂ by the end of 2008.

The future.

We embrace environmental innovation. Land_e is a revolutionary concept car that incorporates an electric hybrid drive as well as other environmental technologies to deliver an integrated approach to sustainability. It sets out to reduce CO₂ emissions and fuel consumption while remaining faithful to the unique essence of Land Rover. Land_e is a preview of innovative and inspiring technologies that may one day influence future product development and feature as standard in a whole new generation of Land Rover vehicles.

Landrover.co.uk/land_e

The environment.

The Land Rover CO₂ Offset Programme is unique and the most comprehensive offset programme ever undertaken by an automotive manufacturer. Independently administered by Climate Care, it funds 'carbon neutral' projects across the world – those that avoid or reduce emissions. This ensures that not only the emissions created during the Land Rover manufacturing process but also the average amount of CO₂ produced by every new Land Rover vehicle during the first 45,000 miles of ownership are balanced by the amount saved by these initiatives.

In Tajikistan, for example, the Land Rover CO₂ Offset Programme is installing two hydro electricity generators in a naturally formed dam. This should reduce CO₂ emissions by 50,000 tonnes per year, while also providing reliable heating and lighting for local schools and hospitals. It will also reduce local reliance on wood as a domestic fuel, lessening deforestation and improving health.

WORLD

Freedom. Land Rover introduced its Fragile Earth policy to promote responsible off-road driving in 1990. At our Experience Centres around the world, we teach drivers how to make maximum use of the capability of their vehicles while minimising their impact on nature and the environment. Come and see for yourself. There are 10 Land Rover Experience Centres in the UK and another 30 worldwide.

Landroverexperience.co.uk

One World. We're participating in global conservation projects with non-profit organisation Biosphere Expeditions, which places ordinary people wishing to become involved in conservation into genuine wildlife projects; international wildlife charity the Born Free Foundation; the China Exploration and Research Society, which works to protect fragile environments and endangered wildlife; international environmental charity Earthwatch; and the Royal Geographical Society. Go with us.

STANDARD FEATURES

Engine & Transmission

- Six-speed manual transmission
- Full time intelligent four-wheel drive
- Four-wheel Electronic Traction Control (ETC)
- Hill Descent Control (HDC)
- Engine Drag Control (EDC)

Suspension & Steering

- Independent front & rear suspension with coil springs & anti roll bars
- Power steering with manual tilt & reach adjustment
- Dynamic Stability Control (DSC)
- Corner Brake Control (CBC)
- Roll Stability Control (RSC)

Safety & Security

- Central locking remote all doors, fuel cap & tailgate
- Perimetric & volumetric alarm
- Remote control central locking & press button start/stop
- Electronic Brake Force Distribution (EBD)
- Emergency Brake Assist (EBA)
- Anti-lock Braking System (ABS)
- Four-wheel disc brakes with mechanical handbrake
- Two Isofix child anchorage points
- Passenger airbag isolation switch
- Driver & front passenger forward airbags, front seat side airbags, full length curtain airbags & inflatable driver's knee bolster

Interior

- Cloth seats
- Cloth door casing insert
- Six way driver/four way passenger manual seat adjustment with height adjust head rests
- Map pocket passenger seat
- Rear seat split 60/40 design
- Central stowage pocket in fascia & glove box
- Two cup holders built into centre console
- Interior mirror: manual dipping
- Electric windows with rear isolation switch. One shot up/down on driver and front passenger door
- Manual air conditioning
- Audio: Radio/single disc CD player with six speakers
- Auxiliary audio jack

Exterior

- Front bumper – body colour
- Rear bumper – body colour
- Exterior mirrors: black electrically heated & adjust
- Headlights: halogen with ignition off delay
- Two bar Titan finish grille
- Solid paint
- Fuel cut off
- Rear wash/wipe

*Figures without catalysed Diesel Particulate Filter.

The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle for which this information is supplied. Vehicles are not individually tested, and there are inevitably differences between individual vehicles of the same model. In addition, the vehicle may incorporate particular modifications that affect its fuel consumption. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance will all affect its fuel consumption. Information as to the results of the officially approved tests on all vehicles tested is available to customers on the premises where these vehicles are displayed.

ON-THE-ROAD PRICE – Includes Government Road Fund Licence £300 (Petrol) and £205 (Diesel) for 12 months (subject to statutory changes) and a £50 Government Vehicle First Registration Fee.

Fuel supplied by the dealership and other goods or services supplied by agreement between customer and the dealership are not included.
